

LUBRICATION MANAGEMENT AND TECHNOLOGY

- Conference & Exhibition
- 4, 5 & 6th June 2008
- Palacio Miramar – San Sebastián (Spain)

# CALL FOR PAPERS

Organised by:  
Fundación TEKNIKER (Spain)  
The Jost Institute for Tribotechnology (UK)

ik4 research alliance

# THE CONFERENCE

Lubrication is a key subject in industry and transport. Lifetime and economical efficiency of many of mechanical devices depends upon suitable lubrication. Fundación TEKNIKER and the Jost Institute for Tribotechnology realised that even though there were numerous international congresses dealing with the scientific approach for lubrication and wear, there were no specific industrially focused event which also included academia.

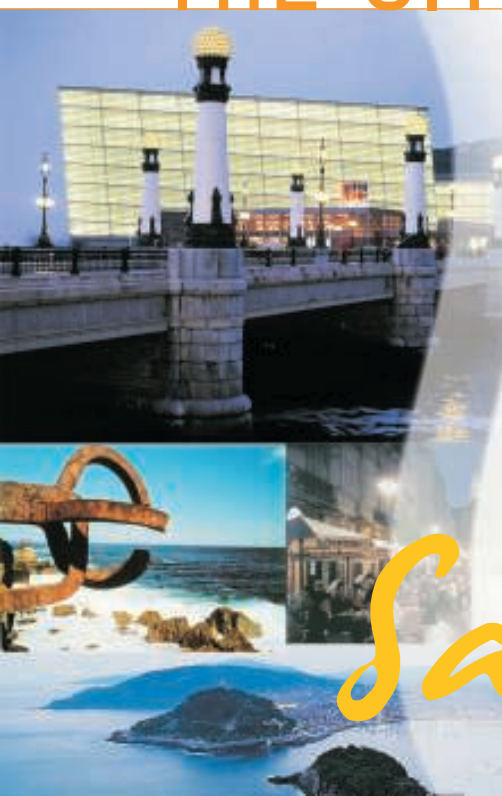

The first LUBMAT was held in Preston (UK) in 2006. Now, based on this first success, a second event is to be held in San Sebastián (Spain). Therefore, it is a pleasure to announce this Call for Papers for LUBMAT 2008. Papers are invited on all aspects of lubrication management and technology, including:

- Applications of fluid lubricants, greases, solid lubricants.
- Use of lubricants additives.
- Lubrication in special environments.
- Environmentally friendly lubricants.
- Lubrication management.
- Condition monitoring.
- Lubrication technology (bearings, transmissions, seals, etc.).
- Lubricant testing.

The 2nd day meeting will include a social event and a conference dinner. A specialised course, by means of tutorials given by prestigious lecturers, will be held the day prior to conference (3rd June 2008), for those interested in specialised training in various aspects of lubrication.

For further details, please visit: [www.lubmat.org](http://www.lubmat.org)

# THE CITY AND THE VENUE

San Sebastián is a marvellous city, with an impressive quality of life. Strategically located in the Basque Country, close to the most important metal-mechanical manufacturing companies in Spain, with excellent communications with the whole Europe.

Outlined by "La Concha" bay, one of the most beautiful beaches in the area of the Biscay Gulf; San Sebastián is an ideal place for congresses and leisure; having exclusive shopping and an extraordinary gastronomy, well known throughout the whole world.

The Miramar Palace is the former Spanish Royal family summer house, it is located at the centre of the city, very near from most of the hotels and with an impressive seaside landscape. It offers all facilities and resources to celebrate an international congress with the best support and enjoying a superb environment.

# San Sebastián

# SUBMISSION OF ABSTRACTS

Abstracts should be submitted before 31st December 2007. The submission should include:

- Title of the paper.
- Author(s), affiliation and contact details.
- Keywords.
- The abstract (no more than 200 words) in an MS Word document or as plain text.

Please, visit [www.lubmat.org](http://www.lubmat.org) for further details.

Abstracts will be subject to peer review and, if approved, published as complete papers in proceedings. One copy of the proceedings will be provided for each delegate at the conference.

Please, send your abstracts, exhibition reservations or request for further information to the Conference Secretariat:

**e-mail: [lankor@lankor.com](mailto:lankor@lankor.com)**

Please, add my name to the mailing list

I am interested in:

Attending as a delegate Yes  No

Attending the tribology specialised course Yes  No

Presenting a paper Yes  No

Being a company exhibitor Yes  No

# SCIENTIFIC COMMITTEE

## Fundación TEKNIKER

- Dr. Ana Aranzabe (Chairman)
- Mr. Javier Barriga
- Dr. Amaia Igartua
- Mr. Jesús Terradillos
- Mr. Aitor Arnaiz

## Jost Institute for Tribotechnology

- Prof. Robert D. Arnell
- Prof. Ian Sherrington
- Prof. Edward H. Smith

(A fifth expert to be defined)

## External Committee Members (incomplete)

- Mr. Leandro Muntado (Brugarolas – Spain)
- Prof. Jorge Seabra (Inegi – Portugal)
- Mr. Luis Fernández (Repsol)

## Head of Secretariat

- Mr. Javier García (TEKNIKER)

# ORGANISING COMMITTEE

- Dr. Ana Aranzabe (Chairman)
- Mrs. Estíbaliz Aranzabe
- Mr. Javier Barriga
- Mr. Javier García
- Mr. Jesús Terradillos
- Prof. Ian Sherrington
- Prof. Edward H. Smith
- Prof. Robert D. Arnell

**JostInstitute**  
for Tribotechnology
